A HIDDEN ENCLAVE OF CULINARY DISCOVERIES

Established in 2008, Bedrock Bar & Grill was founded and built on the vision of serving up the finest steak cuts and dishes, crafted with primal cooking techniques at their best. From its cave-painting-inspired logo to the authentic applewood-fired grill that smoulders in the kitchen, Bedrock draws from the earth to create the simple dining experiences - Earth + Food + Fire.

FLAVOURS FROM THE GRILL

Fire is the core of Bedrock. Marked by a respect for tradition and product, wood-grilled, smoked hot or cold, with exotic spices or keeping things classic, Bedrock serves a selection of handpicked meat cuts and seafood from the USA, Japan.

Bedrock specialty cuts are dry-aged and grilled over applewood fire to extract the best intrinsic flavours.

TOAST TO CELEBRATIONS FROM THE BAR

Let our Bedrock sommelier make a recommendation from a handpicked selection of certified organic and biodynamic fine wines.

Whisky connoisseurs can look forward to a list of premium and limited edition whiskies, whiskey-based cocktails as well as rare and special spirits made by boutique family distillers in remote places like the Scottish isles and rural Japan.
